
LAMOUREUX NOËL TESSIER GROUP

RISK MANAGEMENT & DERIVATIVE PRODUCTS

ScotiaMcLeod is pleased to welcome the **Lamoureux Noël Tessier Group** to our Capital Branch.

The team collectively brings a wealth of twenty years experience stemming from prestigious firms such as GE Capital, Société Générale and MF Global.

Graduates from the country's top business schools, they put their daily efforts into protecting corporate and institutional partners from fluctuations in currency exchange and interest rates as well as commodity prices. Their high net worth clientele are well-advised investors seeking to improve diversification and above normal yields in their investment portfolios.

They may be reached at the following and are waiting to hear from you; their future, long-term, financial partner:

SALES: 1-514-287-2954

DERIVATIVES / COMMODITIES FUTURES SPECIALISTS

ScotiaMcLeod was originally formed as a partnership in February 1921 by four young entrepreneurs. The foundation laid by these men was rooted in trust, financial expertise and innovation - strengths that have prevailed ever since.

In 1987, the Bank of Nova Scotia purchased McLeod, Young, Weir, having identified it as one of the most established and respected firms in the industry.

Today, ScotiaMcLeod is the investment arm of Scotiabank, and a division of Scotia Capital Inc. Scotiabank is one of Canada's largest financial organizations and Scotia Capital is a proven corporate and investment banking leader. All contribute to making the Scotiabank Group one of North America's premier financial institutions and Canada's most international bank.

ScotiaMcLeod is one of the leading financial services provider in Canada, with over 800 advisors serving clients in more than 70 offices across the country.
